Carbon Neutral Mawdesley Could we do it?

20th Jan 09, 7pm at Mawdesley Village Hall

Garry Charnock of Cheshire village Ashton Hayes is coming to Mawdesley to tell us of their efforts to become the UK's first carbon neutral village. Hopefully it will inspire us to greater things.

We will also be updating you on what we, the GreenTeam Mawdesley, have been up to and Jo Oliver, from Chorley Borough Council, is coming to talk to us about the council's upcoming new blue bins, and their plans for food waste trials early in the new year.

On top of all that will we be laying on free hotpot and refreshments! So come along, all are welcome, we look forward to seeing you on the night.
